

Harneys Internship Programme – Cayman Islands

Harneys offers internships to students who are currently enrolled in secondary education or in a university or postgraduate programme. We are committed to searching for exceptional individuals who wish to gain first-hand experience of practice in a leading global offshore firm.

Placements are offered in our Legal, Fiduciary or Business Services teams during the summer months (between June and August) which last between one and four weeks.

Our professionals provide interns with an introduction to their practice/business area, as well as practical application of how to think, write and operate effectively and efficiently in a professional environment. At Harneys, our professionals never lose sight of the fact that during their career, people invested in them. It is now our turn to continue that important education, so that we ensure our interns are mentored and coached appropriately.
